

## Maryland Continuum of Care Contacts

This list of Continuum of Care contacts has been provided to help local workforce development partners engage with their local Continuum of Care leadership in order to coordinate care, create new partnerships, and explore opportunities to collaborate deeper. Please do not use or share this list with individuals receiving or seeking housing and shelter services as these are NOT individuals who provide direct services to people experiencing homelessness. If you are in need of information to provide people seeking housing and shelter, the lead contact below can provide more information about referral hotlines and resources to assist in your area.
